

Lucas Nahuel Espindola

- Tandil, Buenos Aires, Argentina
- 2494-680553
- lucas.nahuel.espindola1998@gmail.com

Senior Software Engineer with 4+ years of experience building and modernizing backend systems. Specialized in PHP, Laravel, cloud infrastructure, Docker, and application modernization. Experienced leading technical decisions, improving developer workflows, and delivering scalable production systems. Interested in software architecture, DevOps, and AI-assisted development.

Education

U.N.I.C.E.N (Universidad Nacional del Centro de la Provincia de Buenos Aires)	Tandil, Buenos Aires
University Technician in Network Programming and Administration	Graduation date: 06/2023

Experience

SIU	Remote
Senior Software Engineer	10/2021 - Current

Technical Leadership

- Led technical decisions and coordinated a small engineering team.
- Performed code reviews and established development standards.
- Supported architectural and modernization initiatives.

Platform Modernization

- Migrated legacy applications to containerized environments.
- Improved scalability, portability, and deployment consistency using Docker.
- Increased reliability and maintainability of production systems.

DevOps & AI Enablement

- Improved observability and deployment workflows.
- Contributed to AI-assisted development practices through AGENTS.md, SKILLS.md and MCP integrations.

Freelance	Remote
Software Engineer	10/2021 - Current

Product Delivery

- Gathered requirements and translated business needs into technical solutions.
- Designed and implemented custom applications.

Cloud & Operations

- Deployed and maintained applications on AWS (EC2, S3, Elastic Beanstalk).
- Managed performance, scalability and operational stability

Continuous Improvement

- Delivered iterative enhancements based on business growth and feedback.

Selected Achievements

- Automated deployment pipelines using GitHub Actions, reducing environment setup time.
- Containerized legacy systems improving deployment consistency.
- Introduced AI-assisted workflows using MCP integrations.
- Led engineering practices including code review and architectural alignment.

Skills

Backend: PHP, Laravel, Node.js, Java
Cloud & DevOps: AWS, Docker, Linux, Bash
Database: PostgreSQL
Languages: JavaScript, TypeScript, Python, Kotlin, Swift
AI Tools: Claude, MCP, Skills, LangChain
